LLOYD JACKSON

CLASSIC CONFIDENCE SYSTEM

A MONAT Testimonial

BY: LLOYD JACKSON

In November of 2015 our daughter Amanda said "dad you must use this Monat treatment system." I have been balding for the past 5 years with a 3-4 inch bald spot on the top of my head that was only getting bigger. The first time I used it I was sold. My hair felt incredible but never expected the coming results. I was so pleased and proud of my success, that I shared it with all of my friends on my personal email contact list. This was my Christmas present to them as most are younger than I and can benefit even more.

At my first hair cut in February, 2016, only 3 months later, I was told by the barber that my balding had "stopped dead in its tracks" and that I had "an enormous amount of new growth with dark roots." I had noticed that my hair seemed darker and now I was understanding why. I was still on my first bottle of Monat Men's 2+1 as very little is needed and I don't always shampoo with each shower. Not only is my scalp no longer itchy or irritated, but I am left with a full manageable head of hair. I can now go on average 4-5 days between shampoos where before the build-up from previous products required more frequent washing.

Our youngest daughter Amber said "Dad you are a sensation on Facebook with your hair!" I jokingly said that I was a self-appointed "HEAD" spokesman for Monat. My wife and I are both very shy with Facebook, as our friends can attest to, as we both like our privacy. I do, however, see the benefits of sharing a good story or product. I have to confess, at this time it seems like a conflict of interest, as our daughter Amanda is not only one of the leading sales representatives with the company.

The good Lord said that it is better to give than to receive and all I am doing is giving my story and advice on a great product without trying to sound like Bob Barker from The Price is Right. Like I told Amanda after giving her thanks, was that this product will sell itself, all she and her growing team will have to do is find someone to try it.

I want to thank Monat as not only are I and my wife enjoying the products, but I am told that it is also safe enough for our young grandchildren.
